Innovation - Experience - Support

POWERED BY SENECA IRON WORKS

**Let us help with your next Remodel or New Barn Project.
SENECA. Your Complete Barn Experts!**

WHETHER YOUR PROJECT IS BIG OR SMALL, OUR COMMITMENT REMAINS THE SAME.

PLANNING & DESIGN

- We listen to understand your goals and offer the best solutions to achieve them.
- Our experienced team can help you layout and design your barn; New build or Renovation project.
- Timely and accurate quoting.
- We'll work with your builders and contractors for clear communication.
- Large local inventory of standard items.

ORDER & DELIVERY

- We review and confirm your order when placed.
- We understand things can change on a project and work to accommodate order adjustments.
- Accurate product availability and delivery lead times.
- Our manufacturing team strives to ensure that everything you need is on-site when you need it.
- Pick-up or delivery options available.

INSTALLATION

- We offer professional installation on everything we sell.
- Dedicated personnel who coordinate and manage installation schedules.
- If you choose to install yourself, we'll supply you with the information needed to do the job right.
- All products come to you clearly labeled and organized.

PRODUCT SUPPORT

- We stand behind all of our products.
- Dedicated Technical and Product Support staff is available to walk you through and help resolve any issues.
- Follow-up is standard after any project. We want to ensure that you are completely satisfied.
- Any questions or concerns? We are just a phone call away! Call (888) 3-SENECA or (888) 373-6322.

Seneca Dairy Systems is a full service Dairy Solutions Provider. From barn design and consultation, to manufacturing and installation of the equipment you put in it, we'll be with you every step of the way! Here are some of the products we offer.

CURTAIN SYSTEMS

Heavy duty 15 ounce frosty clear fabric and rugged, rust free aluminum keder components. From basic hand-crank and gearbox operation to fully automated environmental control systems. Ask about **SENECA** Automation!

LOCKUPS

Designed for today's larger animals and bigger farms, our lockups are heavier and stronger than any on the market. **SENECA** GEN3 lockups offer the widest head opening in the industry and single-hand operation. (calf, heifer & cow)

GATES

Our heavy duty gates feature strong hinges and latches for increased longevity. **SENECA** offers a huge inventory of standard and man-pass sizes. We also offer bi-fold, swing-up, fold-up and custom gates to fit your every need.

FEEDRAIL & SLANT PANEL

No matter how you choose to feed your cows, we have the perfect option for you. **SENECA** offers feed rail and slant panel mounting systems that will stand up to tough environments and outlast the competition.

CROWD GATES

Our innovative crowd gate will take the hassle out of moving your herd to the parlor. With the latest in Safety Logic and a host of convenience-features, the **SENECA** Moo-TIVATOR is the Crowd Gate of the future!

MATTRESS SYSTEMS & RUBBER FLOOR

SENECA has partnered with Huber Technik to offer you the most cow comfort focused mattress and flooring systems. All of their products are made of non-recycled, new rubber material for maximum elasticity and durability.

AUTOMATION

SENECA Automation will open and close your curtains several times a day, based on your preferences, weather and environmental inputs such as Inside and Outside Temperatures, Wind, (Direction and speed) and Rain.

FREESTALL SYSTEMS

SENECA stalls are made from heavy duty 10ga. galvanized steel tubing and feature our durable bracket and clamping options for a system that will last for many years. Several easy mounting options for hassle-free cow comfort!

WATERERS & TIPTANKS

From the **SENECA** 304 food grade stainless steel tip-tanks to Miraco and Ritchie waterers, we've got you covered. Water availability is so important. Let our experts help you with placement, installation and maintenance.

CALF PENS AND SUPPLIES

SENECA galvanized calf pens feature 4 steel mesh panels and 3/4" pipe frame. They can be connected so two adjacent pens share a common wall. We also offer calf pen supplies and complete calf barn design consultation.

FABRIC DOORS

SENECA fabric doors are easy to assemble, with 14ga. galvanized track system, galvanized cross pipes, pre-sewn fabric and a simple hand crank and cable pulley system. Our unique cross pipe inserts make for easy replacement.

FANS & VENTILATION

From our **SENECool** division, **SENECA** brings you a superior direct-drive fan that outlasts and outperforms competitor fans, and at a price point you can afford. Available in single and variable speed, **SENECA Typhoon Power** fans BLOW EVERYTHING ELSE AWAY!
