FEED THROUGH SLANT PANELS and Slant Bar Gates

PREDICTABLE SENECA QUALITY

Whether you are feeding calves or heifers, Jerseys or Holsteins, our feed through slant panels are designed to last and grow with your business. All of our slant bars are made of heavy-duty, hot dipped galvanized steel and designed for strength and longevity. With a variety of sizes and lengths always in stock, the feeding solution you need is available when you need it.

MEASUREMENTS:

When installing posts to mount feed panels, we recommend 3" - 4" between the face of the post and the edge of the curb. This keeps the panels behind the edge of the curb. The following are recommendations for mounting feed through panels to a feed curb.

SLANT PANEL FEATURES:

- 2" x 12ga square tube at the top and bottom.
- 1.315" x 12ga round tube slant bars.
- Mounting options for wood or steel posts.
- Easy to install mounting saves time and money.
- Available in a variety of sizes for cows, calves and heifers.
- Available as gates, complete with threaded bolt gate hinges and 12 gauge gate nipple.
- Can be fitted with feeding troughs for calves.
- Standard sizes are always in stock.

SPECIFICATIONS:

| Panel Length | Opening Size | Number of Openings |
|--------------|--------------|--------------------|
| 8' | 8" | 8 |
| 8' | 10" | 6 |
| 8' | 12" | 5 |
| 10' | 8" | 10 |
| 10' | 10" | 8 |
| 10' | 12" | 7 |
| 12' | 8" | 12 |
| 12' | 10" | 10 |
| 12' | 12" | 9 |
| 14' | 8" | 15 |
| 14' | 10" | 12 |
| 14' | 12" | 10 |
| 16' | 8" | 17 |
| 16' | 10" | 14 |
| 16' | 12" | 12 |

SIZING:

| Animal | Weight in Pounds | Opening Size | Mounting Height |
|---------------|------------------|--------------|-----------------|
| Calf | 300-500 | 8" | 12" - 16" |
| Heifer | 500-800 | 10" | 16" - 18" |
| Cow | 800-1500 | 12" | 18" - 20" |

HARDWARE:

FEED GATE OPTION:

Perfect for calf barns! Available with latch and hinge options to attach to steel or wood posts. An excellent way to feed and manage your calves.

RECOMMENDATIONS: 8" Curb width - 1" to 3" from the top of the curb to the bottom of the panel - Manger 4" to 6" above the floor.
